DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-3 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claim 1**, “comparing means for comparing the value of the estimated current calculated by the display data calculating means and the level of panel current for corresponding display, which is detected by the panel current detecting means, to obtain a difference; and adjusting means for adjusting the black level voltage setting value based on a result of the comparison by the comparing means”. The closest prior art Furumiya Naoaki (2002-251167) teaches detecting total panel current to change contrast and a luminance level of an input signal based on a detection result in order to limit a current flowing into the display panel, Mori et al. (2005/0083268 A1) teaches a luminance control for an organic EL display comprising calculating a luminance accumulation value for each screen on the basis of a video input signal ... DAC includes a black-side reference voltage for defining a light-emitting luminance corresponding to the black level of the input signal, however, singularly or in combination with other prior art, fail to anticipate or render the above underlined limitations obvious.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al. (6,667,580 B2) teach a circuit and method display of current driven comprising an organic EL.

Komiya (6,690,117 B2) teaches a display device having driven by current emissive element

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mansour M. Said whose telephone number is 571-272-7679. The examiner can normally be reached on Monday through Thursday from 8:30-6:00 P.M. The examiner can also be reached on alternate Friday from 8:30 a.m. to 5:00 p.m. EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard A. Hjerpe whose telephone number is 571-272-7681.
